Employee Salary & Compensation Analysis

HR Analytics Dashboard | Power BI Project

1. Built a Power BI dashboard analyzing salary and compensation for 200 employees across India
2. KPI cards show headcount, total CTC, average CTC, and average salary
3. Charts break down compensation by department, designation, location, and gender
4. Scatter chart shows how pay grows with experience
5. Slicers let users filter the report by department, location, gender, and performance rating

Tools used: Power BI, Data Modeling, DAX, data visualization
